Location: 4265 Ranch Drive, next to Union just south of Academy Blvd. Garden site drawing below is an approximate depiction of the location and size.

Project Details:

🥕 Ranch Community Garden will be approx. 11,000 square feet and consist of 120 (4ftX8ft) raised garden beds

🥕 Garden members will consist of persons in the surrounding apartment complexes and townhome areas that have no access to land to grow a garden. There are approximately 425 residences within walking distance of the garden.

🥕 12 designated garden beds will be raising fresh organic vegetables with volunteer effort. All produce from these beds will be going directly to the local NCC (Northern Churches Care) food bank. The food bank garden beds will raise approx. 750 lbs. of fresh, organic produce every year.

🥕 Please consider sponsoring 1 garden bed food bank plot for \$250 that is tax deductible. A sign (18" x 24") with your business name/logo and information will go directly beside the garden plot you have sponsored for the next **5 YEARS!** A \$500 donation will put your business on the front partner sign as well, visible from Ranch Dr. for the next 5 YEARS! Will also have business information on ranchcommunitygarden.com website
